Summary

Backend Developer with 4+ years of experience in .NET and .NET Core. I have experience in modernizing legacy systems. I take a methodical approach to building maintainable software using modern development tools and frameworks like .NET Core. I am passionate about continuously learning and collaborating with teams to deliver efficient, adaptable outcomes, while staying adaptable to new challenges and technologies.

Work Experience

Tursys Travel Technologies   *Istanbul*

BACKEND DEVELOPER | ON-SITE   *Oct. 2020 - Sep. 2024*

- As a Backend Developer, I contributed to Corendon Dutch Airlines' digital ecosystem by maintaining and enhancing 5 holiday booking platforms and their primary flight sales portal, Corendon.com, through feature development and bug resolution. My primary focus was the MyCorendon project, a centralized system for managing customer reservations. Within this project, I played a key role in modernizing the legacy platform by transitioning from SOAP-based services to modular REST APIs using .NET 8, improving scalability and maintainability. I supported the migration of the database architecture from MSSQL to MongoDB to better accommodate dynamic customer data needs and assisted in containerizing APIs with Docker for Kubernetes (K8s) deployment.
- **Tech Stack:** .Net Core, Docker, Redis, RabbitMQ, CQRS and MediatR, RESTful API, SOAP Services, MSSQL, MongoDB,

Tursys Travel Technologies   *Istanbul*

BACKEND DEVELOPER (PART-TIME) - ON-SITE   *Oct. 2019 - Oct. 2020*

- As a part-time Backend Developer, I contributed to the development Tursys Manage, a content/resource management platform for travel agencies. I built RESTful APIs and integrated SQL Server databases to enable seamless client-specific data flows, and designed scalable custom APIs aligned with business goals for multiple tourism clients.
- **Tech Stack:** ASP.NET Web Forms, ASP.NET MVC, C#, MSSQL, JQuery, SOAP Services, RESTful API

Education

Sakarya Univesity   *Sakarya*

B.S. IN COMPUTER ENGINEERING   *Sep. 2014 - Sep. 2020*

Skills

Programming Languages and Softwares

EXPERIENCE - DEVELOPMENT SKILLS

- C#, .NET Core, ASP.NET & .NET MVC, CQRS and MediatR, Docker, RabbitMQ, Redis, RESTful API, SOAP Services

KNOWLEDGE - DEVELOPMENT SKILLS

- Elasticsearch

DATABASE MANAGEMENT SKILLS

- Experience in Microsoft SQL Server, MongoDB

Languages

SPEAKING, READING AND WRITING

- Turkish - Native Speaker
- English - Working Knowledge
